PROFESSIONAL SUMMARY

Full-Stack Developer and AI Automation Engineer with internship experience across Pakistan and Canada. Proficient in the MERN stack, React.js, and AI automation tools including N8N, Vapi, and GoHighLevel CRM. Focused on building scalable web applications and intelligent pipelines that deliver measurable business impact.

EDUCATION

BS Computer Science

2022 – 2026

FAST – National University of Computer & Emerging Sciences

F.Sc – Pre-Engineering

2022

Punjab Group of Colleges Lahore, Pakistan

TECHNICAL SKILLS

Frontend: React.js, Redux, JavaScript, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST API Design, JWT Authentication

Databases: MongoDB, PostgreSQL

AI & Automation: N8N, Vapi, GoHighLevel (GHL) CRM, LangChain, OpenAI APIs, Conversational AI, Webhook Integrations

Tools & Platforms: WordPress, Git/GitHub, VS Code, Postman

EXPERIENCE

AI Developer Intern

Jan 2026 – Present

DBtronics.org | Canada — Remote

Built AI automation pipelines via N8N, Vapi & GHL CRM, reducing manual call-handling overhead by over 80% across client operations. Deployed 3+ chatbot workflows automating customer query resolution and managed a WordPress business site with SEO improvements, increasing organic traffic by approximately 40%.

Web Developer Intern

2025

Reownlogics | Pakistan

Developed 3+ responsive UI components using React.js & Tailwind CSS, cutting average page load time by 20% and improving cross-device compatibility across all client deliverables.

Frontend Web Developer Intern

2024

US Group | Pakistan

Built and shipped 2 React.js UI modules under agile sprints, achieving on-time delivery across 3 client projects with zero post-launch UI defects reported.

PROJECTS

AegisCare – Intelligent Multi-Agent Elderly Care Framework  | *MERN Stack, Multi-Agent Systems, Real-Time Alerts, REST APIs*

Engineered a multi-agent MERN platform monitoring patient vitals in real time with sub-second alert latency, serving 5+ simulated patient profiles; built secure REST APIs and an analytics dashboard reducing manual monitoring effort by 60%.

Learning Management System (LMS) Platform   | *React.js, Redux, Node.js, PostgreSQL, JWT Authentication*

Built a full-stack LMS supporting 3 user roles (students, professors, admins) with role-based dashboards, dynamic course management, and real-time grading analytics across 10+ simulated courses. Implemented JWT authentication on a React/Redux frontend backed by a Node.js/PostgreSQL architecture, reducing unauthorized access risk and supporting seamless multi-role sessions.

Glide Chemicals – Company Website   | *React.js, Tailwind CSS, Node.js, Express.js*

Developed a fully responsive corporate website with React.js & Tailwind CSS frontend and Node.js/Express.js backend, achieving sub-200ms API response times and consistent rendering across all major browsers.

DBtronics.org – Company Website  | *WordPress, CMS*

Built and maintained the DBTronics.org business site on WordPress, applying on-page SEO optimizations that improved search ranking visibility and reduced average page load time by 30%.

AI Inbound Receptionist Automation System  | *Vapi, N8N, GoHighLevel CRM, Voice AI*

Deployed a Voice AI receptionist via Vapi & N8N handling natural-language call routing, appointment scheduling, and live GHL CRM sync, reducing manual inbound call handling by over 85%.

LEADERSHIP & ACTIVITIES

President, Sports Guild Society – FAST NUCES

2025 – 2026

Led 20+ volunteers to organize 5+ university-wide sports events per semester, growing inter-departmental participation by 40% and strengthening campus teamwork culture.
